

Writing a Google Review

Writing reviews of businesses, restaurants and anything else on Google is easy and simple. You'll only need a Gmail account to do this, so check out our guide to setting up a Google Mail account.

- Log in to your Gmail account.
- Search Google for the place you want to review (in this case, The Local Circuit).

The screenshot shows a Google search for "the local circuit". The search bar contains the text "the local circuit" and a magnifying glass icon. Below the search bar, it says "Search" and "About 51,300,000 results (0.36 seconds)".

The search results are categorized under "Everything". The first result is for "The Local Circuit, Computer Repair Denton, Texas - I.T. Consulting ...". The URL is www.thelocalcircuit.com/. The description says "Computer and Hardware Repair for Home and Business, Denton, Texas, Mobile Computer Repair, On Site Service, Technical Support". It has a 5-star rating and "15 Google reviews". A green box highlights the "Write a review" button, with a green arrow pointing to it and the text "Click Here". Below the rating, it says "You rated it 5 stars." and "308 Dallas Drive Denton, TX 76205 (940) 484-8999". There is a "Testimonials" section with the text "As a charity that provides free services, we are thankful that ...". There is also a "Terms of Service & Guarantee" section with the text "At The Local Circuit, we want our Clients to be 100 ...". Other sections include "Web Design & Hosting" (The Local Circuit provides website design services in ...), "Document Scanning" (Take control with The Local Circuit's Document Scanning ...), "Contact Us" (Computer and Hardware Repair for Home and Business ...), and "Home" (The Local Circuit is committed to assisting our clients, both ...). There are also links for "More results from thelocalcircuit.com >", "THE LOCAL CIRCUIT: Connectodex :: American Express OPEN Forum", "The Local Circuit | Facebook", and "The Local Circuit. The last show is today... 8pm on 89.3fm and kugs.org ... The Local Circuit We're going to be too busy being on the radios! ...".

On the right side of the search results, there is a "The Local Circuit - Directions" section. It includes a map showing the location of The Local Circuit in Denton, Texas, with a red pin. Below the map are several logos, including "The Local Circuit", "DENTON CHAMBER OF COMMERCE", and "local circuit". There is also a "Details" section with the text "At a glance: computer repair - laptop" and "Bus: NB Dallas Dr. @ Cook". Below that is a "More reviews" section with the text "insiderpages.com (10)".

- Click the "Write a Review" button below the link. It is to the right of the stars and above the physical address.
- Select your reviews's rating between one and five stars (one being awful, five being awesome) and rate it accordingly. Put in any comments you would like to make as well.
- Push "Publish" and you're done! Within 24 hours (often much sooner, depending on Google's traffic that day) your review should be made public.
- To edit, change or delete your review just look it up when you're still signed in to Gmail. When you click "Write a Review" you will be taken to the copy you made prior and given the option to edit it. When you submit a change, be sure to click "Publish" only once (otherwise an error may occur).
